

PHYSICS 101 HONOR CODE AGREEMENT

NAME OF STUDENT:

STUDENT'S DEPARTMENT:

STUDENT ID NUMBER:

INSTRUCTOR'S NAME: Ekmel Özbay

HONOR CODE

A. The Honor Code is an undertaking of the students, individually and collectively:

(1) that they will not give or receive aid in examinations; that they will not give or receive unpermitted aid in class work, in the preparation of reports, or in any other work that is to be used by the instructor as the basis of grading.

B. The instructor on his/her part manifests his/her confidence in the honor of his/her students by refraining from close-examining tests and from taking unusual and unreasonable precautions to prevent the forms of dishonesty mentioned above. The instructor will also avoid, as far as practicable, academic procedures that create temptations to violate the Honor Code.

C. While the instructor alone has the right and obligation to set academic requirements, the students and instructor will work together to establish optimal conditions for honorable academic work.

I have understood the terms set in policies and procedures of Physics 101, and within these guidelines I acknowledge and accept the honor code.
